The problem is, that it does not work for me. When I click an element of my newly loaded tree, the ajax callback function is not firing the event which should trigger some code after the item is clicked. JS: \$.ajax({ url: '/ajax/', data: { 'sort_by': 'created' }, success: function(data) { \$(''.jstree-ajax').jstree(true).open_node(data); } }); jQuery: \$(document).ready(function(){ \$('div.jstree').jstree({ 'plugins': ['themes','json_data', 'ui','anchors'], 'theme': 'default', 'json_data': { 'ajax': { 'url': '/ajax/', 'data': function (node) { if (node.meta['_id'] == 1) return { 'id': 1,'sort_by': 'created' } c6a93da74d
